Name of Interviewer: M. Fabeiry

Date(s) of interview(s): 13.8.68

Length of interview(s): 1 1/2

or contacts

Total actual interviewing time: 1 1/2 hrs.

Form of introduction

"My name is X. I'm from Essex/London University. We're preparing a report (writing a book) about standards of living in Britain today and how families manage. We think it's important for the Government and everyone else to know what the facts really are. We're hoping to talk to about 3,000 families throughout the country and I'd be very grateful if you could help us by answering some questions. All our information is, of course, strictly confidential."

SUMMARY : COMPLETE AFTER INTERVIEW

1. Interview carried out at first call at second call at third or later call	10	3. Which sections were answered in whole or in part by which persons on the household?	Write Section 1, 2, 3, etc.	5. Number of other households at address	21

SECTION 1 HOUSING AND LIVING FACILITIES

I'd like to start by asking a few questions about your house/flat

1(a) How many rooms are there - I mean for the sole use of the household?

number of living and dining-rooms (excluding bed-sitter) 0 1

number of kitchens 0 1

Is the kitchen large enough to eat in? Yes No

*number of bedrooms (including bed-sitter)

*total number of living and dining and bedrooms (including kitchen if large enough to eat in)

(b) How many of these rooms are usually heated during the evenings in winter (whether by coal, gas or electric, paraffin stove or central heating)? DK

2. Would you and your family like to have more rooms or fewer rooms in the home?

- X* more than one room extra
Y an extra bedroom
0 an extra living room
1 number of rooms about right
2 one room fewer
3 two or more rooms fewer
4 DK

3. Is electricity laid on? yes, power points and lighting
yes, lighting only
No
DK

4. Has the household the sole or shared use of the following INDOOR facilities?

- (a) A flush W.C.* X yes, sole use
Y yes, shared
0 none
- (b) A sink or washbasin and cold water tap 1 yes, sole use
2 yes, shared
3 none
- (c) A fixed bath or shower 4 yes, sole use
5 yes, shared
6 none
- (d) A gas or electric cooker 7 yes, sole use
8 yes, shared
9 none

5. Does the household have the sole use or shared use of a garden or yard?

- X sole use garden } ASK Q. 5(a)
Y sole use yard }
0 shared garden }
1 shared yard } SKIP TO Q.6.
2 neither garden nor yard }

(a) Is it - too small for the household to sit in the sun (e.g. smaller than 10 feet x 10 feet)

- CODE ONE ONLY - at least big enough for the household to sit in the sun, but not equal in size to a tennis court
ONLY - substantial in size (e.g. equal in size to a tennis court or bigger)

6. One or two other questions about living here. Do you find the air in this neighbourhood clean or is it dirty, smoky or foul-smelling?

- always dirty, smoky, foul-smelling
sometimes dirty, smoky or foul-smelling
not dirty, smoky or foul-smelling
DK

The children have been away for some time - apparently longer than inf. said - and as family has only lived here for three weeks, don't think children have slept here at all - sometimes if they might be permanently looked after by grandparents. Inf. didn't mention them like half way through interview, said they are away just for the summer holidays; but housekeeper said inf. is highly neurotic and anything she says is unreliable.

QUESTION 10

At this point put any christian name of informant in first box on back flap, then christian names of all other adults and children in household. In complex households always list children immediately after their parent(s) or guardian(s). Otherwise, in the case, say, of a married couple and adolescent children you may find it easiest to list according to age: first the wife who is, say 54, husband 55, children 26, 24, 20, 17 and 14. When you write in information throughout the questionnaire please keep rigorously to the particular column for each named person in the household. Specifically "household" information is recorded in the first column. The informant's answers about himself should always be entered in the next column. The list of members under Q. 10 may have to be later modified according to who is temporarily residing in the household or who is temporarily away. This should be checked carefully. Boarders of more than four weeks residence should be recorded as members of the household; lodgers and sub-tenants will require separate questionnaires.

**HOUSEHOLD TYPE

On the back of the questionnaire you will find a code list of household compositions. When you are checking the questionnaire put the appropriate code for this household in the box allocated under the double asterisk.

Definition of a Household

A private household comprises one person living alone or a group of persons living together, having some or all meals together and benefiting from a common housekeeping. Persons who have resided in the household for at least four weeks and are not expected to leave shortly, and persons who have resided in the household for less than four weeks but are not expected to leave again after that period, should be listed as members. Persons who are felt to be members of the household but are away (e.g. students or men at work) should only be included if they have been away for less than 13 weeks and are expected back within the total period of 13 weeks (code under 10(d)).

QUESTION 10(e)

Age-group: code as below

0 - 1	01
2 - 4	02
5 - 9	03
10 - 14	04
15 - 19	05
20 - 29	06
30 - 39	07
40 - 49	08
50 - 59	09
60 - 64	10
65 - 69	11
70 - 79	12
80 and over	13
DK	X
NA	Y

QUESTION 10(d)

Code reasons as below

Hospital/nursing Home/convallescent Home	1
Staying with relative or friend	2
Otherwise away on holiday	3
In armed services/merchant navy	4
Otherwise working away from home	5
Prison, approved school, Borstal, detention, etc.	6
Children's Home or foster home	7
Boarding school, college, university	8
Other (specify)	9

*1 referred to 2 as
her husband but
people below said
they are not
married to each
other*

QUESTION 10(f) — Court order

A maintenance order secured through the courts. If no action has been taken to confirm the separation then code 1; in this situation at least the spouse in the household accepts that man and wife are not living together and there is no immediate prospect of them so doing.

QUESTION 11

If answer yes, complete other parts of question and amend Q. 10 if someone included in answers to that question who proves in fact to be a temporary visitor or guest (i.e. who has stayed less than 4 weeks and not expected to stay for total period longer than 4 weeks).

QUESTION 11(a)

If there is more than one visitor enter information for all in box or on this left hand page.

QUESTION 11(f) Code as follows:

Relative staying without payment	1
Friend staying without payment	2
Relative staying with payment	3
Friend staying with payment	4
Other person staying with payment	5
Other (e.g. nurse/student) —specify	6

QUESTION 12

If any person is felt to belong to the household and is expected to return to it after a total absence of less than thirteen weeks (e.g. at University, in hospital, at work, staying with relatives), then the interviewer should include such a person in the replies to Q. 10. But the information should also be recorded here in Q.12.

QUESTION 12(h) Prompt and code as follows:

Hospital/nursing/convallescent/residential Home	1
Staying with relative or friend	2
Otherwise away on holiday	3
In armed services/merchant navy	4
At boarding school, college or university	5
Otherwise working away from home	6
Approved school/Borstal/detention centre, etc.	7
Children's Home/foster home	8
Prison	9
Other (specify)	x

*but this ~~does~~ seems
to be c. l. marriage*

QUESTION 13(a)

"Marriage": include common law marriage if in fact revealed by informant.

QUESTION 13(b)

Code whereabouts of parents only in terms of the replies so far given (or given later) by the informant. Direct questions might seem to be very offensive **and they must be avoided**. Indirect questions will be helpful according to the circumstances. For example, it may transpire that one child is the half-sister of another. It would then be very reasonable to ask "How are they related?" Or when it becomes obvious that one parent is not present, it would be reasonable to ask "Does John see his father regularly?"

"Accepted stepfather" or "Accepted stepmother" describes a man or woman not legally married to the natural mother or father of the child(ren) who has been in the household for at least 13 weeks and who is clearly accepted by the informant as the "stepfather" or "stepmother" of the child(ren) living in the household, albeit not accepted by law in this role.

QUESTION 14(a) Play within easy reach

This means that the mother can rush to a tearful child within, say, 30 seconds of hearing a wail. A "safe place" could of course include the garden.

QUESTION 7(b) Last Occupation

Write in the occupation on the left of the columns. Identify the person to whom the information applies in the little box (i.e. 1st or 2nd or 3rd etc.) This will both allow you to enter information for a second or third person if that proves to be applicable and for the office to code in the right column(s) on the basis of your information.

QUESTION 7(c) Looking for work

You will find yourself asking retired persons as well as unemployed and other persons this question. Sometimes it will be entirely applicable because persons who have been retired by their employers or have automatically ceased employment upon reaching a pensionable age of, say, 60, may in fact be seeking alternative work. It may even be applicable for some persons in their seventies and eighties. But sometimes it will plainly be inapplicable to frail persons of extreme age, especially women. In this case code "NO" and skip to Q. 8. When in doubt, however, you should ask the question.

Can return to previous jobs when recovers

QUESTION 8 Work record

Our aim is to trace persons whose work record is not full and to establish both numbers of weeks off work and numbers of weeks in which fewer than 30 hours were worked.

Weeks off work in year

The procedure is first to ask the general question about numbers of weeks off work. Some informants will be uncertain of the right answer. They can be encouraged by prompts about the last spell off work for unemployment, then sickness and so on down the list. Whenever it is clear they are going back more than 12 months you should move on to the next eventuality on the list. In the appropriate column note the number of weeks for all spells of unemployment, sickness, etc. You must record "O" in all open boxes when the person has had no spell off work for that reason. You may ignore the codes "X" and "Y" under each open box. They are for office use. For easy reference you can record each spell off work alongside the months listed below. (You may in rare instances interview persons, say, who had five or six spells off work through sickness and may need to show some rough working to arrive at the right total. (Please leave any rough working in case of queries.)

List member of household (informant, 2nd, 3rd) and weeks off work and reason

January.....	July.....
February.....	August.....
March.....	September.....
April.....	October.....
May.....	November.....
June.....	December.....

Some informants may have a quick answer for the first general question (usually because they have a very full or almost empty record of work in the year). You should nonetheless use the same procedure of asking about each type of eventuality and each spell off work as a check. If an informant says he hasn't been off work except for "just odd days because of colds and so on" ASK **How much would it amount to over the past twelve months — one week, two weeks? AND CODE ACCORDINGLY.** For informants (e.g. housewives or students) who have only worked for a few weeks in the year, you may find it quicker to establish first how long they were at work.

As with so many other questions about "the last twelve months" in this questionnaire, informants will often find it helpful if you encourage them to think forwards from a date exactly a year ago.

*Ⓟ is not a consistent worker
only works "intermittently"!*

CURRENT MONETARY INCOME

General

This section asks questions in turn of the employed, the self-employed and then everyone, including those who are not employed. Our object is to obtain reliable estimates of income, before and after tax, for each income unit in the household, both for "last week" and "the last 12 months".

Income Unit

This is any person aged 15 or over, or if in full-time education any person aged 19 or over, together with wife or husband (if she or he has one) and children under 15 (or aged 16-18 if in full-time education), if any. According to this definition a man, wife, and children aged under 15 count as one income unit, but a middle-aged widow and a son who is a university student, or an elderly widow and a single daughter of 40, count as two income units. A household consisting of man and wife with three single children who are all over 15 years of age and who are at work counts as four income units.

Allocating Income

Usually amounts of income can be entered in the appropriate column, according to the person receiving it. Do not enter any income twice. Do not, for example, enter a particular amount both for the wife and the husband. Nor need you split up any amount part of which is payable for a dependent wife or child. Thus, do not attempt to divide up the total of family allowances; enter the total in the wife's column. And enter an amount for sickness benefit, say, even if it includes sums for the wife and children, in the husband's column (if indeed it is he who receives it).

Gross and Net

In the first question you carefully ask for the last pay net of deductions and go on in the second question to establish what these deductions are. The answers to both questions effectively give gross and net earnings for the last period for which pay was received and you can build up further information in the questions that follow. You should be conscious of this distinction throughout the section. It will not always be possible to get information both for income after tax and income before tax. Remember that if you cannot get an answer for one you may be able to get it for the other. Make a note whenever you can. We can calculate in the office.

Last 12 months

Though you start by finding what was the last amount of pay received it is very important also to find what was the average pay during the previous 12 months and gradually build up the total income received by the income unit and the household in those months. You have already filled in a work-record and this will help you to answer several of the questions in the section.

QUESTION 1 Last earnings

Remember to check earnings for each member of the household, even those of a wife who had a job for only a few weeks in the year, a young son who works only on Saturdays, and a retired man with a part-time job. Second or subsidiary earnings are dealt with in Q. 14. Note that each digit is ruled off from the next. Insert "0" in any column which does not apply. Please note also that we have allowed wider columns on these income pages so that you have enough room to write in figures. But note that you will have to indicate which member of the household received any income if you are obliged to use a fifth or sixth column.

QUESTION 2 Deductions

Don't forget that a total is better than nothing. If the informant is uncertain say, "I believe it is on your pay slip" and encourage him or her to check. We have asked you to put a tick if in fact you are shown a slip or the informant reads off the amounts. As before, the small boxes on the left are for you to identify the member of the household: "Inf." "2nd" "3rd", etc.

National Insurance contributions

A male employee ordinarily pays 15s. 8d. and a female employee 13s. 2d. per week, although note that a married woman can elect to pay only 7d. per week to cover industrial injuries benefits. Boys under 18 pay 10s. 1d. and girls 8s. 5d. per week. Persons over 18 who are contracted out of the graduated pension scheme pay a higher flat rate insurance contribution of 18s. 1d. (men), 14s. 8d. (women).

Graduated pension contributions

The employee contributes 4 1/2 per cent of each pound of gross weekly earnings between the ninth and the eighteenth, i.e. approximately 11 1/2d. for each of these pounds, plus 1/2 per cent for each pound between the 19th and the 30th, i.e. rather more than 1d. for each of these pounds. In fact a man with gross weekly earnings of £9 pays nothing, one with £13 pays 4s. 0d., one with £21 pays 9s. 0d., and one with £30, 9s. 9d. About one person in every five, however, is contracted out of the graduated pension scheme, but such persons nonetheless pay 1/2 per cent on each pound of gross earnings between the ninth and the 30th, or a maximum of 2s. 1d.

QUESTION 3 Highest and lowest

Check the number of weeks worked by turning up the work record. Some people's earnings will have varied only in one or two weeks of the year and it will not be difficult for you to establish an average in (b). Remember Q. 3(b) is very important. Other people's earnings may have varied widely, either because of changes of job or variations in overtime. Do not include variations due to holidays or sickness. If it is difficult to arrive at an average write in the box or in the margins, e.g. 10 weeks @ £15 10s., six weeks @ £15 15s. and 23 weeks @ £24 11s. We will work out the rest. Do not include weeks of holiday or sickness, which are explored later.

QUESTION 4 Bonuses

If a commission or bonus has been included in Q. 3 do not now amend the answer to that question. If the information is given for the first time write the amount in the box and also strike out "Before" or "After" Tax as appropriate.

*Has no idea
how much he
husband
earned, but
said talking
housekeeping
reckin that
fill it all his
earnings*

QUESTION 14 Second job

This will have been established in the earlier section on Employment. Repeat the question because earnings from subsidiary occupations tend to be forgotten. For example, painters and decorators may have done one remunerative weekend job for a few weeks several months earlier in the year. A gardener may have done some intensive paid work for various local people in the evenings and weekends of the summer months. Or a university lecturer may have had a remunerative consultancy or a series of well-paid broadcasts at some point in the year. Remember that extra earnings from a source other than usual employment may not be thought of as a second job. You should probe for all kinds of additional earnings, depending on the nature of the usual employment.

QUESTION 15

This is laid out as concisely as possible on one page and you are asked to ring 01, 02, 03, etc., as appropriate and then to enter the rates per week and amounts below, carefully writing in the code "01" (i.e. Family Allowances) "02" (i.e. Retirement Pension) and so on so that we are clearly aware of the allowances to which the amounts refer.

Amounts will sometimes be joint — e.g. retirement pension for man and wife — or will be for several members of the household — e.g. sickness benefit for man and wife and children. In these instances the amount should be entered (if necessary, after the interview) in one column only, under that member of household receiving the payment. Wherever possible encourage informants (especially when elderly) to show you the allowance or pension book.

CODE 01 Family Allowances

	First child	Second	Third	Fourth & subsequent
up to April 1968	nil	8s.	10s.	15s.
after April 1968	nil	15s.	17s.	17s.

counting children under 15 or up to 19 if still in full-time education or college or an apprentice on low wages.

CODE 02 Retirement Pension

Note that the actual amounts vary widely. Increased pensions are paid if retirement is deferred. There are now in addition small graduated state pensions (averaging about 3s.) and pensions may be reduced because of earnings or a deficient contribution record. Note that some of these points also apply to other benefits. Pensions and supplementary benefits can be combined in a single payment. You will be prompting for supplementary benefit and wherever possible we should like you to list the amount separately (as well as the fact that it is being received). But whenever the rate given to you exceeds the standard rate below you should check the reason.

Single person (husband)	£4 10s. 0d.
Wife's income	£2 16s. 0d.
1st dependent child	£1 5s. 0d.
2nd dependent child	17s. 0d.

CODE 03 Standard Widow's Pension

Note: not the widow's allowance which is paid for the first 26 weeks after widowhood.

Widow or widowed mother	£4 10s. 0d.
1st dependent child	£2 2s. 6d.
2nd child	£1 14s. 6d.
3rd and subsequent child	£1 12s. 6d.

Depending on the circumstances of the death of the husband (armed service and so on) widows' pensions may differ in size. Note that family allowances are received in addition to dependent children's allowances.

Widow's Allowance: Widow £6 7s., children as for widow's pension

CODE 04 and 05 Sickness Benefit and Unemployment Benefit

Sickness benefit is often paid for periods other than a week. Find what was the last payment and for how many days (excluding Sundays). A payment for 6 days, excluding Sunday, makes up a "week's" benefit. Note that an earnings-related supplement may be paid in addition to the flat rate benefits listed below. Moreover, these benefit rates depend on the contribution record.

Single person	£4 10s. 0d.
Married woman	£2 16s. 0d.
1st dependent child	£1 5s. 0d.
Each subsequent child	17s. 0d.

CODE 06 Supplementary Benefit

The former "national assistance". Rent is sometimes paid direct to the landlord by the Supplementary Benefits Commission. There is a check later that the amount is known and counted as income.

CODE 07 Industrial Injury Benefit

£6 7s. 0d. (with additions for dependants) is payable for the first 26 weeks after injury after which the injured person goes before a Board to have his injury assessed for an individual disablement pension.

CODES 08 and 09 Industrial and Disablement Pensions

The 100 per cent rate is £7 12s. 0d. (with additions for dependants). CODE 09: Note that these are war pensions, not service pensions included under occupational pensions later in Q. 19.

CODE 10 Maternity Allowance

The standard rate of maternity allowance is £4 a week. It is paid to women who have been paying full national insurance contributions. It begins 11 weeks before the expected confinement and ends after the sixth week following it.

CODE 11 Maternity Grant

This grant is £22 either for home or hospital confinement.

CODE 14 Single Grant

This is officially described as an exceptional needs grant. The Ministry of Social Security has replaced the former National Assistance Board and you may need to explain "a grant from the Assistance". Probe carefully for this for all income units who are not employed, whether or not they receive supplementary benefit. A large number of people obtain single grants, e.g. for spectacles or dentures, even though they are not normally eligible to receive supplementary benefit. Note also that since you are asking about a period of 12 months there will be instances of people now in work who obtained a grant at an earlier point in the year.

That's what she said

QUESTION 20 Miscellaneous allowances and cash income

The various kinds of income have been laid out as compactly as possible but remember that two or more may need to be coded and you should prompt carefully. Underneath describe the type of allowance (so that we know to which code a particular amount refers) and the amount per week or per month. Ring either "1" or "2" depending on whether the allowance did in fact cover last week and strike out "Before" or "After" tax as appropriate. Make sure that in the case of allowances of husbands temporarily away from home that you have not already written in his earnings earlier as a member of the household. If you have do not write in any amount he pays. All we want here is any income which is not covered by earlier entries.

QUESTION 20(b) Allowances for separated and divorced wives

Some wives receive money direct from their husbands (or via the court). Others have court orders but these are signed over to the Supplementary Benefits Commission, which collects the money and pays the mother a standard weekly allowance. We therefore want to avoid counting the amount in Q. 20 if that amount is already included in the figure for supplementary benefit listed under Q. 15. We also want to be able to sort out irregular payments of both money from court orders and supplementary benefit. Check carefully in all these instances and write a note if anything needs clarification. Fatherless families form a small proportion of the total sample of households. Where money from court orders is paid irregularly and the mother claims weekly from the Supplementary Benefits Office she might not always claim the full amount, or may delay her claim in which case she loses benefit. Check to see if such loss is occurring.

QUESTION 21 Allowances and sums paid to others

This question complements some of the sub-questions in Q. 20. Here we are concerned to find out about all cash payments or allowances amounting to at least 10s. a week or £25 a year. Note that married children frequently pay rent or bills for elderly parents and old people sometimes make considerable cash gifts to their children. Examples are payments for grand-children's clothing or holidays, payment of T.V. rentals and licence, cash gift for car.

Original family allowance to be made to help towards children's upkeep while they are away

QUESTION 22 Tax relief

Our object is to gain further evidence about reciprocal aid but also to help us in interpreting the figures for earnings and deductions given earlier. Note that you are not expected to probe for amounts.

QUESTION 23

Property income is considerable for a small percentage of informants and tends to be of two types: income from only one or two houses and income from a range of properties. With a few people considerable time may need to be spent on getting a reliable answer to this question. Net income after tax may not be known so we deliberately seek gross income before tax, then expenses, and only finally income after tax. You may not be able to get the third but make sure you get a figure for the first. It may also be difficult to secure a figure for expenses of rates and repairs but remember that property-owners will often know the total sums entered on their income tax returns. It may even be helpful to remind informants of this: "I mean the total like that in your income tax return — gross income less expenses." Note that many owner-occupiers and tenants rent rooms and flats to others in their accommodation. Do not count the rent from a boarder living in the household.

QUESTION 13

NHS means free, wholly paid for by the National Health Service. Private and amenity (paying) beds in NHS hospitals should be coded as private.

QUESTION 13(b) Number of nights

If a person has had two or more spells in hospital add the total number of nights together.

QUESTION 13(c) Name of hospital

This will be used in the office to code type of hospital.

QUESTION 14

Ill in bed means actually in bed for at least half the day.

QUESTION 15

Visits by and to a doctor will include calls when a person is no longer in bed but up and about. The questions are not, therefore, dependent on the answer yes to Q. 14. When the household is large and/or when there have been several visits it may take you a little time to obtain a reliable answer. Remember that in cases of difficulty it is usually best to approach the answer by asking: "When did you last see your doctor?" "And when was the time before that?" "So that means you saw your doctor seven times altogether in the last 12 months?" Remember that we want to count each consultation, even if there are two consultations on one day or on succeeding days. Remember also to include locums and other (alternative) doctor seen in this period.

QUESTION 15(c) Visits paid for

If the informant is a wife who makes a visit to her NHS doctor and pays later for the pill, which he prescribes, this should still be counted as a NHS visit.

QUESTION 16 Spectacles

Most people pay in part for spectacles even under the NHS but some obtain them free by paying and then claiming a refund on test of means (by the SBC).

QUESTION 18 Doctor at hospital

It is the number of occasions we want to know, not the number of doctors seen at the hospital.

Visits to dentist

Remember to ask number of visits, not number of courses of treatment.

Home help

We are interested only in the use of a local council's Home Help Service.

Someone from the Welfare

We mean a social worker or officer from a Council health, welfare or children's department who is concerned with some aspect of family welfare. Include a health visitor, say, but not an officer from the Supplementary Benefits Commission or someone from a voluntary organisation — like the WVS or Salvation Army.

QUESTION 18(a) Paying a dentist

The point is that very poor people can get free dentures and do not have to pay the £1 for a course of treatment.

QUESTION 18(b) Home help

Some councils charge for a home help's service on test of means.

*Pay check ups
only*

QUESTION 14 Fuel

Everyone forgets to order coal. Stress "through lack of money".

QUESTION 15 Birthday parties

Again the emphasis is on the expense and the experience of bringing the child's friends **into the home**, so stress that we don't mean just a family party.

QUESTION 17 (a) Social class

This question requires the views of both chief wage-earner (head of household) and housewife. By "chief wage-earner" we mean the person upon whose earnings the housekeeping income primarily depends. By "Head of Household" we have in mind the **alternative** person to be questioned if there is no chief wage-earner, e.g. a husband who is a retirement pensioner, or a widowed mother (who may be the tenant) living with her widowed daughter (the housewife) and grandchildren. As far as possible the views on social class should be sought from each person independently. If both are present take the question stage by stage, making sure both answer before passing on. The question asks first for a self-rating, which must be written down. At this stage **avoid putting names of classes into people's heads**. People often hesitate awkwardly, so try to get the informant to say what class she thinks she belongs to or "is nearest to". Prompt by repeating the question carefully, and say "It's what you think", implying (which is true) that everyone has their own idea and each is equally valid. Do not strain to get an answer if one is not easily forthcoming. Do not assume the informant will pick one class only. Multiple choices of "middle and working" or "professional and working" are allowed.

QUESTION 17 (b) Determinant of class

Code housewife and chief wage-earner only. Next, to give us a clue as to what the informant is using as a reference point and scale we ask, in effect, the informant's idea of what determines "class". Try to get the most important one only.

QUESTION 17 (c) Names of classes

Third, the informant is presented with a flash-card (this is why husband and wife should if possible be interviewed separately, since otherwise the second person may be unduly influenced). Code one item only. If informant wants (again) to say "None", say "Well, I've got to **put something down, which would you think was nearest?**" This rating is the most important bit of the question. Do not be puzzled if the wife gives a different answer from the husband. This is quite common.

QUESTION 17 (d) Father's main occupation

That is, the occupation held for most of the time (not necessarily the most recent).

QUESTION 18 Well off

Four comparisons are made in this series of questions—with relatives, with other people (note—of the same age) in locality, with the average in the country and finally in the context of time. Prompt carefully and remember that you might get a different response for one comparison than for another.

① You are born with
a heart, two lungs,
kidneys & 33 feet of
bowels!
Never consider class,
just people

① Don't think there
is any class

FOR ALL CODE ALL IN HOUSEHOLD

14. Have you ever been short of fuel during the last year through lack of money? I mean have you had to go without a fire on a cold day, or go to bed early to keep warm or light the fire late because of lack of coal? yes
